no - let's send what we have and let them know that the new well we sampled will be sent in a few days.

Ok. Should I wait to get this from you before forwarding the data?

Hi Greg,

I received the sample well location database from John, but it did not include the DW50 well. The most current record is from 9/22/11.

Do you have the data on this well for me to add it?
